**Break down the barriers
between your customers,
suppliers, and partners.**

sagavista Enabling the E-economy™

Sagavista™ enables

real end-to-end E-business – up to 10 times faster.

Integrating your enterprise Mainframe, ERP and legacy systems may seem like a daunting challenge.

But now, with Sagavista, you can quickly Web-enable and integrate systems within your enterprise. At the same time, you can also integrate your legacy Mainframe, ERP and custom applications and business processes with customers, suppliers, and partners.

That's real end-to-end e-business.

Start streamlining your business processes today and eliminate manual intervention, lower production costs, reduce operating errors, and deliver customer service in real time.

Do it all. Faster. Easier. And cheaper. With Sagavista.

Attend this Real E-business Webcast and see...

- The latest e-business trends concerning intra- and extra-organization integration presented by Giga Information Group.
- Strategies for competing in the global e-economy by leveraging industry standards and open technologies such as XML and Java.
- How Sagavista, SAGA's e-business integration tool, lets you connect front-end Web applications with your existing applications – inside and outside the enterprise.

Watch a Sagavista E-business integration demonstration and see...

- A manufacturer integrating legacy Mainframe systems with the Web – providing distributors with self-service ordering.

You'll also see how to integrate back-end fulfillment and distribution systems – for a true, end-to-end e-business.

Real E-business Integration with Sagavista™

Learn how to share information with customers, suppliers, and partners – up to 10 times faster than ever before.

A Webcast

Presented FREE by SAGA™, IBM®, Giga®, and Concept Five®
An interactive Q&A will follow.

Wednesday, March 22, 2000

Programs at 10 a.m. and 1 p.m. EST
